Subject: RE: Compliance schedule language

Hi Susan,

At first glance this looks pretty clear to me. I may try to run it by one of our attorneys for their thoughts on the overall structure, but I realize you're probably looking for feedback asap to get something out there on the 30th. I'll try to do my best. Will the next section of the rule begin with subsection (b)?

Thanks for keeping us informed on this.

Subject: Compliance schedule language

Matt/Angela—We are getting close to final implementation tools language and I am trying to break out aquatic life from criteria that apply to other uses (that don't need to go through ESA). Can you look at the language below and let me know what you think? This would be up at the very front of the section. It will be pretty obvious that we are purposely separating out aquatic life from other uses, but I guess since that's what we are doing we might as well be direct about it.

Thx--Susan

(4) General allowance for compliance schedules.

- (a) Permits and orders and directives of issued by the department for existing discharges may include a schedule for achieving compliance with effluent limits and water quality standard~~criteria contained in~~ this chapter that apply to:

(i) Aquatic life criteria and

(ii) Criteria that apply to all uses other than aquatic life.
